Subject: Lakeview Mine Plan

The mine plan that we approved on May 12, 2008, is the one Lakeview submitted in February 2006. We had submittals after that time, but they were not approved. Also, the company re-submitted the February 2006 plan in April 2008, so while this looks like something new, it's really from 2006.

We had several concerns with the 2006 plan, so at the same time as we approved it, we gave them an order to revise the plan. They responded on July 30, 2008, and we have yet to complete our review of their response. My first impression is that they did not adequately respond to some--many?--of our issues.

I would like to get you a copy of this plan; I assume it would be useful. Could you give me your address, and we can get it off in the next day or two?
